APIA, SAMOA ISLANDS

THIS CHARMING COLONIAL-STYLE TOWN IS A HUB OF BUSINESS AND SHOPPING

The art of Samoan tattooing – Samoa is a fascinating cultural exception. They are the only territory where the tradition of tattooing has never been interrupted under the pressure of missionaries. The tufuga ta tatau (tattoo artists) are therefore still descended from families of tattoo artists who have handed down their techniques from generation to generation since time immemorial.

In Samoa, tattoos marked the passage to adulthood and were necessary for marriage, among other things. A long and terribly painful process, the pe'a (male tattoo) and malu (female tattoo) proved, and still show today, the strength and courage of those who wear them and mark their allegiance to the group of chiefs and their respect for their authority and Samoan traditions. Lasting up to several weeks, the men's tattoos cover the body from torso to knees in intricate and complex designs.

A real Samoan tattoo is accompanied by binding rituals that are still widely carried out today. For example, for the duration of the creation process, which can take several weeks for a man, the tattooist must stop cutting his hair, shaving his beard and having sexual intercourse. He must also eat his meals separately and be accompanied wherever he goes, day or night. For women, as the tattoo only covers the upper part of the leg, a tattoo only lasts a day or two but involves the same rituals and the same extreme pain.

Men with a completed pe'a are sog'a'imiti. Those who didn't go all the way, because of the pain or the price, are called pe'a mutu – a disgrace – while those who didn't get tattooed are called telefua or telenoa, which means "naked" in Samoan.

APIA SAMOA MORMON TEMPLE

The Apia Samoa Mormon temple was announced on October 15, 1977. With its completion the Apia Samoa temple became the 22nd operating temple of the Mormon Church.

One of the most impressive buildings in Samoa is this massive temple taking up 1736 sq metres on the western approach to town. Completed in 2005 after a fire destroyed the previous building, the white granite edifice has an elegant art-deco sensibility and is capped by a golden angel.

HAND WASHING & HAND SANITIZING

Keeping hands clean through improved hand hygiene is one of the most important steps we can take to avoid getting sick and spreading germs to others. Many diseases and conditions are spread by not washing hands with soap and clean, running water. Alcohol-based hand sanitizers can quickly reduce the number of germs on hands.
