THE MAGIC OF ZLWIN CHEW

TONIGHT'S SHOW

▶ AT 9:30PM
THE SHOW LOUNGE, DECK 6

"When you want something, the whole universe conspires to help you achieve your dream."

This was the quote that hung close to the heart of a young Zlwin Chew starting out in the world of magic 15 years ago. With a deck of cards and a head full of dreams, Zlwin started his career working at the top clubs in his country, Malaysia. His shows are often sought after by luxury brands such as Louis Vuitton and Chanel and he travels worldwide from Istanbul to Paris, London to Amsterdam, Oman to the Maldives and all across Asia and Australia.

Zlwin's shows have often been referred to as "Something so entirely different from what others are doing". Rightly so, because he believes in using his time on stage to share a message of hope and light in a struggling world. He fuses magic acts with thought-provoking messages and inspiring poems, performing a unique kind of magic that entertains the eyes and moves the heart.

LET'S CELEBRATE NATIONAL & INTERNATIONAL FOOD & BEVERAGE DAYS

TODAY: Oreo Cookie Day (USA) + White Chocolate Cheesecake Day (USA)

At Silversea Cruises, we take maximum food precautionary measures to ensure the safest quality product is offered to our guests; Worldwide Public Health Services advise that consuming raw or undercooked meats, seafood, shellfish, eggs, milk, or poultry may increase your risk of food-borne illness, especially if you have certain medical conditions.

INTERNET AND WIFI SERVICES AT SEA

Silversea is pleased to provide complimentary Internet service to all guests aboard our ships fleetwide. As there are no "cell" towers or cable networks at sea or in many of the remote places we visit, Silversea uses cutting-edge satellite technology that is far different than the high-speed broadband you are likely accustomed to on land. The distance that the data must travel is called "latency" and it is due to this process that onboard Internet access may be inconsistent, or in some cases, not available. Satellite communications are also affected by weather and the ship's location.
