COMEDY OF TWO VOICES IN ONE

MARK MERCHANT BRINGS THE FUNNY! BE HAPPY!

▶ **AT 9:30PM**
THE SHOW LOUNGE, DECK 6

From Atlanta, Georgia, comes this man from the south who makes his living by not opening his mouth. With comedy as fresh as the day's headlines that refreshingly pushes the edge, but never jumps it, Mark Merchant will bring the funny.

He has been seen on David Letterman and on America's Got Talent... for about 10 seconds. Diverse humour which has pleased President Jimmy Carter and Gov. Sarah Palin is the goal.

The show is rated "H" for hilarious. A veteran performer who has toured with the USO, opened for stars in Atlantic City, Reno, and all parts of the civilized world, and parts of Florida, is happy to be entertaining tonight on *Silver Shadow*. A fun evening not to be missed!

THE SPLENDOURS OF EUROPE

No matter how many times you've explored the Mediterranean, it's never enough. You can sail to the Greek Isles, join an Etruscan olive oil tasting, wind through the golden Dalmatian Coast and much more. Let Europe's grandeur enchant you on a spring, summer or fall voyage. Save up to 10% on selected sailings if you book today on board.

LET'S CELEBRATE NATIONAL & INTERNATIONAL FOOD & BEVERAGE DAYS

TODAY: Something on a Stick Day (USA)

At Silversea Cruises, we take maximum food precautionary measures to ensure the safest quality product is offered to our guests; Worldwide Public Health Services advise that consuming raw or undercooked meats, seafood, shellfish, eggs, milk, or poultry may increase your risk of food-borne illness, especially if you have certain medical conditions.

INTERNET AND WIFI SERVICES AT SEA

Silversea is pleased to provide complimentary Internet service to all guests aboard our ships fleetwide. As there are no "cell" towers or cable networks at sea or in many of the remote places we visit, Silversea uses cutting-edge satellite technology that is far different than the high-speed broadband you are likely accustomed to on land. The distance that the data must travel is called "latency" and it is due to this process that onboard Internet access may be inconsistent, or in some cases, not available. Satellite communications are also be affected by weather and the ship's location.
