JUNEAU, ALASKA

THE CAPITAL OF ALASKA AND ONE OF THE MOST POPULAR CRUISE PORTS

Extraordinary adventures amid nature's wildest staging await at Juneau. The majestic Mendenhall Glacier sprawls down from Juneau Icefield, which provides an icy cap to the area's rip-roaring scenery. State capitals simply don't get more dramatic than this isolated, remote city lost amid the Alaskan wilds. Even the roads eventually peter out, absorbed by forests and viewpoints, firmly underlining the isolated location, hidden behind an impenetrable wall of rigid mountains.

Rise up to Mount Roberts Tramway's viewpoint, to see the city swallowed by this most colossal backdrop. This is glacier country, and no fewer than 38 ice flows branch off from the main Juneau Icefield, slowly carving out valleys in their wakes. Taku Glacier cuts deep into the mountain, forming a colossal sculpture that is one of the world's thickest - almost a mile deep.

Mendenhall Glacier cascades down, just 12 miles away from downtown, terminating in its own lake and visitor centre. With 1,500 square miles of ice field to explore, one of the best ways to take in the magnitude and majesty of this epic ice sculpture is to hold on tight as the propeller whirs, and you soar into the skies on an exhilarating sightseeing flight. Cruising up above the icy world that fills in these serrated mountain peaks is a once in a lifetime experience.

The animals that inhabit the Southeast Alaskan wilds are just as inspiring as the landscapes - families of bears patrol the riverbanks, bald eagles survey the surroundings watchfully, and Pacific humpbacks migrate from Hawaii's waters to feast on the krill rich, icy waters. Fish for huge catches, power across the ice in a snow-sledge, or kayak just below glaciers. However you choose to immerse yourself in it, Juneau's incredible outdoor adventures never disappoint.
