NAHA, OKINAWA, JAPAN

The independent kingdom of Ryukyu

Unlike other parts of Japan, Okinawa has its own separate history, having been the independent kingdom of Ryukyu during the 15th century. It is located in an ideal area between mainland Japan and Taiwan; the small kingdom prospered and traded goods with Japan, China, Korea, and Southeast Asia.

Subsequently, Okinawa developed its own unique history and culture that is evident today. Naha, the largest city in Okinawa Prefecture, has nearly 6 million visitors from outside of Okinawa prefecture every year, and it has been one of the most popular destinations within Japan. What makes this city so special? You are sure to be fascinated by magnificent Okinawa landscapes while you are in the city.

Remaining of the kingdom of Ryukyu is a "must-see" but you will also learn the history of Okinawa during World War II as well. Okinawa prefecture was under American occupation since 1945, and it finally returned to Japanese sovereignty in 1972. You could still see the combination of Japanese and American cultures.

OKINAWA FOOD GUIDE

In Okinawa, food is life, and the delicious regional cuisine is one of the secrets to Okinawan longevity. Okinawan's have a word, *nuchigusui*, which they use to describe their cuisine. It literally means "medicine of life," and indicates how, for the people of Okinawa, food is more than just sustenance; it is something that nourishes both body and mind. Okinawa is also one of the world's Blue Zones, an area where people live longer than the average life expectancy, and the diet of the islands is thought to be an important contributing factor. Visitors can take a tour of Okinawa through their taste buds, sampling tropical fruits, island vegetables, and local dishes unlike anywhere else in Japan. In doing so, they will perhaps discover one of the secrets to Okinawan longevity.

Awamori is the oldest distilled alcoholic drink in Japan, and is believed to be the predecessor of shochu (another distilled Japanese spirit). The technique for making awamori is said to have remained unchanged for over 500 years. Indica Thai rice is soaked in water and sprinkled with black koji mold, which is then fermented with water and yeast, before undergoing a single distillation to complete the process.
